CITY TRUSTEES MEET

BIDS FOR PUMPS AND MOTORS
OPENED—OTHER BUSINESS
TRANSACTION

The regular meeting of the board of trustees of the City of Glendale was held in the city hall, Thursday evening, Sept. 21, 1916. Present, J. S. Thompson, president of the board, and trustees Charles Grist, R. M. Jackson, F. L. Muhleman and G. B. Woodberry. Also present, Mattison B. Jones, acting city attorney; H. B. Lynch, manager public service department; Ed M. Lynch, city engineer; G. H. Herald, city marshal; A. H. Lankford, fire marshal; T. W. Watson, city manager. J. C. Sherer, city clerk, was absent.

In the absence of the clerk, Trustee Woodberry was elected clerk pro tem.

The minutes of the last regular meeting were read and approved.

On motion, the following bids for furnishing pumps and motors for the city pumping plant were ordered to be opened, read and publicly declared, and upon being read, the bids were on motion referred to the manager of the public service department to make report of same at the next regular meeting.

On motion, the continuation of the hearing in regard to the opening and widening of Seventh street was ordered to be taken up. In connection with this matter, the city engineer reported having had a conference with the interested parties and recommended that a reassessment be ordered. (Trustees Grist and Woodberry not participating).

Trustee Muhleman made a motion which was adopted that the protest against the present assessment be sustained and that the street superintendent be ordered to prepare a reassessment.

The engineer reported that Mr. Melzer objects to the position of the curb at the corner of Glendale and Oakwood avenue as set forth in the plans for the improvement of Glendale avenue; that Mr. Melzer had agreed to deed a strip of land 50 feet long and 8 feet wide at one end running to a point to the city for street purposes, the city to pay for moving hedge and re-arranging the grounds as nearly as possible in their present condition.

The city engineer requested a leave of absence for one week beginning Friday morning, September 22, and the same was upon motion granted.

Demand 2853 was read and upon motion referred to the Finance committee.

Warrants were ordered to be drawn in payment of Demands 2778 and 2768, by the following vote: AYES—Grist, Jackson, Muhleman, Thompson, Woodberry.

NOES—None.

The Finance committee reported favorably on Demand No. 2853 and upon motion the same was allowed and warrant ordered to be issued in payment of the same, by unanimous vote.

The city attorney reported that in regard to the framing of an ordinance regulating the standing of motor busses on the streets, the city had the right to regulate he same, and presented an ordinance.

On motion of Trustee Grist, "An ordinance amending Ordinance No. 276, entitled "An Ordinance of the City of Glendale requiring license certificates for the regulation and operating of motor busses," by adding Section 4½ thereto," was taken up for the first reading.

On motion, this ordinance was declared read for the first time and was taken up for the second reading.

On motion this ordinance was declared read for the second time and was laid over till the next regular meeting for the third and final reading.

The matter of library expenditures was discussed by the trustees and upon motion, the city manager was directed to confer with the library trustees in regard to the same.

A report was made by the city attorney in regard to the regulations of hospitals and sanitariums, to the effect that it is competent for the city trustees to provide reasonable restrictions and regulations. On motion of Trustee Grist, seconded by Trustee Jackson, the city attorney was instructed to draft an ordinance regulating sanitariums, hospitals, etc.

On motion of Trustee Jackson, seconded by Trustee Muhleman, it was ordered that the city manager inform the Glendale Garden Society that on account of insufficient funds, it is impossible for the trustees to comply with the request of the society for contribution.

On motion of Trustee Jackson, seconded by Trustee Grist, the city manager was instructed to prepare a resolution regulating the removal

FIRE PROTECTION

THREE SUMMER MONTHS SHOW
LIGHT RECORD OF TEN
ALARMS

"There are two incidents worthy of particular notice in the fire department's record for the three months dating from June 22 to Sept. 22. "One of these is," said Chief Lankford, "that the department made use of the lung motor. This instrument wherever used in time has proved itself of the greatest service in reviving persons who have been immersed in water for considerable periods. In the case in Glendale where it was last used, at the attempt to revive a young child drowned on Sept. 4, the call for the lung motor did not come until it was too late to be of use.

"This was probably because no one remembered that the city has a lung motor. The fact that a lung motor constitutes part of the protective part of the city's equipment should be made widely known as it is of service in all cases of asphyxiation.

"Another interesting feature of the past three months' experience was that when the Kalem Company proposed to burn down a two-story house they had erected in their grounds, in the course of the production of a scene in one of their films, that Glendale was not able to afford them the fire protection they desired and that they sent to Tropic for the Tropic engine, which was stationed close to their artificial lake and pumped water all evening to wet down the buildings on the grounds. Glendale has no pumping engine.

"Analysis of the fire events of the past three months shows that from June 22 to Sept. 22 there have been 10 fires as follows:

"June 22: Boys playing with firecrackers set fire to the roof of a house occupied by L. F. Bauer. The fire was easily extinguished and the loss was only \$15.

"June 23: Boys playing with matches set fire to an outbuilding. The department extinguished it with the garden hose. The damage was negligible.

"June 25: A grass fire broke out on a vacant lot at Vine and Pacific. The cause was unknown. It was extinguished with shovels.

"July 6: A false alarm was turned in from "801 Lomita." It was discovered that there was no such number.

"July 14: While the city's weed-cleaners were burning off a parkway they set fire to a palm tree. The blaze was extinguished with three gallons of chemical.

"July 17: An outbuilding belonging to D. E. Shadrach, 313 E. Colorado boulevard, was set on fire by boys playing with matches and was wholly destroyed.

"Aug. 3: Someone burning rubbish in the bed of the wash, at N. Louise and Brand boulevard, set fire to one of the piling which constitutes part of the flood protection there. The blaze was easily extinguished.

"Sept. 10: A brush fire was extinguished without much trouble at the corner of Colorado and Lincoln avenue. It was caused by the owner who thought he had a right to destroy brush on his own property.

FEDERAL RESERVE EXAMINATION

Members of the Glendale company of Federal reserves, are reminded that Lieut.-Col. Fay of San Diego will be present, today, Friday, from 2 p. m. to 9 p. m. in the Fire House, for the purpose of examining those who have joined the reserve. The examination will occupy some little time and those who can get there in the early part of the afternoon are urged to do so.

of trees in cases where the streets are to be improved.

On motion of Trustee Muhleman, "An ordinance of the City of Glendale, extending the time for the filing of an action in the Superior Court of the State of California, in and for the County of Los Angeles, for the condemnation of property for the opening, widening and laying out of Eighth street in said city," was taken up for the first reading.

On motion this ordinance was declared read for the first time and was taken up for the second reading.

On motion this ordinance was declared read for the second time and was laid over till the next regular meeting for the third and final reading.

Trustee Thompson reported that the channel of the Verdugo Wash in Verdugo Canyon should be cleared of willows, brush and certain wire obstructions. On motion, the matter was referred to the city manager.

BRITISH ADVANCE ONE MILE ON SOMME FRONT

GEN. HAIG'S MEN REPULSE ATTACK OF BOMBTHROWERS
AND GAIN MORE GROUND

(Special Service to Glendale Evening News)

LONDON, Sept. 22.—The British advanced a mile today on the Somme front. The German troops made an attack on their lines near Courcellette and Thiepval. At first the Germans gained ground here but lost it again. The Bavarian troops are keeping up a continuous fight with bombs and the fighting is very bitter. The British carried two German trench lines in the course of this fighting.

ROUMANIANS DEFEAT GERMANS IN DOBRUDJA

SIX-DAY BATTLE RESULTS IN RETREAT OF VON MACKENSEN'S RIGHT WING

(Special Service to Glendale Evening News)

LONDON, Sept. 22.—After a six-day battle in the Dobrudja, the right wing of Gen. Von Mackensen's army is retreating slowly, in the direction of Dobricz. The statement concerning the Roumanian victory came from the Roumanian war office. The joint force of the Roumanians and Russians is still within its strongly fortified positions as far as can be learned. The Roumanian war office also states that the Roumanians have penetrated 45 miles into Transylvania.

SERVIANS SEVERELY DEFEAT BULGARIANS

CZAR FERDINAND'S TROOPS MEET WITH DECISIVE
CHECK ON THE ZBROSKO RIVER

(Special Service to Glendale Evening News)

PARIS, Sept. 22.—Reports from Gen. Sarraïl, who is in command of the Allied forces in Macedonia, state that the Servians administered a severe check to the Bulgarians on the Zbrozsko river. The Bulgarians made strong attacks on the positions on Kaimakalan mountain, held by the Servians who recently wrested them from the Bulgarians, but were thrown back with loss.

GERMAN ATTACKS ON SOMME REPULSED

TEUTON ATTEMPTS TO RETAKE BOUCHAVESNES REPULSED BY FRENCH

(Special Service to Glendale Evening News)

PARIS, Sept. 22.—The Germans hurled attacks of unprecedented violence against the French positions at Bouchavesnes. Nine thousand troops, some withdrawn from other parts of the line, were sent against the recently taken positions. The French, however, had consolidated their positions and the attacks uniformly failed. The British line south of the Ancre, assailed with equal violence, also held. The assault lasted ten hours and was prosecuted with enormous loss of life.

VILLISTAS KILL TWO BRITISH CITIZENS

ATTACK IN TUXPAM LIKELY TO LEAD TO COMPLICATIONS BEFORE LONG

(Special Service to Glendale Evening News)

GALVESTON, Texas, Sept. 22.—Villistas made an attack on Tuxpam, an important city of Southern Mexico, yesterday. In the course of the fighting two British citizens were killed. It is feared that this may lead to complications with Britain. No report of any action by the British vessels off this coast has been received as yet.

PEACE REPORTS ARE AGAIN CURRENT

GERMANY HINTS THAT PRESIDENT WILSON OR THE KING OF SPAIN MAY BE ASKED TO ARBITRATE

(Special Service to Glendale Evening News)

LONDON, Sept. 22.—It is now being suggested in the German papers that peace may come some time in October. A move for peace is thought to be likely at that time. It is also suggested that either the King of Spain or President Wilson would be asked to head the negotiations. The Allies are not likely to make any reply to this suggestion.

VILLA IS ADVANCING ON CHIHUAHUA

CONCERTED MOVE AGAINST CARRANZISTAS IS VISIBLE IN NORTHERN MEXICO

(Special Service to Glendale Evening News)

EL PASO, Sept. 22.—Villa is again on the warpath. He is credited with having a following of 1700 men. He is also said to be within twenty miles of Chihuahua City. Northern Mexico is full of anti-Carranzistas and it is believed that they will co-operate with Villa before long. It is believed here that Villa's raid on Chihuahua was intended to convince the United States that Carranza does not by any means control northern Mexico.

GLENDALE HIGH

CLASS MEETINGS—ELECTION OF
OFFICERS—T. O. C. EX-
CITEMENT

Things are beginning to take on speed at Glendale High. Class meetings seem to be very much in order this week, and it is class meetings that start things; and it is these things which start in class meetings that rob life of its monotony, so, "Let there be class meetings."

The latest class to hold a meeting was the Sophomore class. This meeting may be said to have rivalled the Junior and Senior meetings in the amount of spirit shown. Robert Carmack was honored with the presidency, which chair he graciously accepted, preferring, however, despite the fact that he is still lame as the result of a recent accident, to stand throughout the meeting. He may still be said to have filled the chair ably. The other officers elected at this meeting were: Vice-president, Mansford Barnes; secretary, Cecelia Lyons; treasurer, Roscoe Puffer.

Following the election of officers it was decided to retain the colors, red and green, and to get some red and green sweaters. The meeting was featured by numerous speeches by Chauncy Kolts, retiring president.

T. O. C. What does that stand for? This is the live question at Glendale High just now. Everyone wants to find out something about the T. O. C. Several investigators, after two days searching for the answer to this question, report the mystery unsolvable. No one seems able to throw the least light on the strange hieroglyphics to be seen on the blackboards or the queer signs which seem to permeate the air about the school. Several prominent upper classmen, when approached upon the subject, refused to divulge anything that would clear up the puzzling problem.

The Rostrum, Glendale High School's wide-awake literary and debating society, held its first meeting yesterday afternoon. A discussion on the presidential candidates was decided on for the near future. This will be held before the student body and will be open to the public. More details, including the date, will be given later.

The Seniors are already looking forward to class rings. To this end a ring committee has been appointed to get things started. Members of the committee are: Catherine Phillips, Helen Harden and Olin Wilson.

HAD NARROW ESCAPE

Among the passengers on the Congress, the big passenger and freight steamship which was burned at sea a short time ago, were Mrs. Colegrove and her four children. The Colegroves were going to Seattle whither Mr. Robert Colegrove had preceded them. They formerly resided at 707 Adams street and were well-known and active members of the First Presbyterian church.

The Rev. W. E. Edmonds received this week a letter from Mr. Colegrove telling how thankful all were of their escape from the danger that had threatened them. They lost their baggage—a trunk, three suitcases, a handbag, shoes, hats and caps. But little time was given them for getting into the boats.

DR. ADAMS WILL LECTURE

Dr. H. V. Adams, a prominent chautauqua lecturer, who on account of the desirable climate of Southern California and the beautiful scenery in and about Glendale, has chosen his home on Elrose avenue, has been requested by his friends to deliver his famous sermon-lecture on "The Well Diggers" at the Adventist church, corner Isabel and Third streets, Glendale, Tuesday evening, September 26th, at 8 o'clock.

Dr. Adams has been on the platform for the past ten years, traveling 35,000 miles a year, or about 350,000 miles since commencing lecture work. That his lectures are intensely interesting is evidenced from the fact that his time is engaged by contract for 1917 and 1918, and several lyceum bureaus are endeavoring to book him for 1919.

Dr. Adams will leave Wednesday morning on a lecture tour extending from Iowa to Maine, so this will be the last opportunity to hear him for some months. The Glendale Sanitarium Quartet will render special music before the lecture. The public is cordially invited.

WEATHER FORECAST—Unsettled weather tonight and Saturday; probably showers; westerly winds.

CURRENT TOPICS

BARACA FOOTBALL—TURTLE
TEA—MISSIONARY
ADDRESS

BARACA FOOTBALL

The Glendale Presbyterian Baraca football team held their nightly practice last evening at Second and Brand, thirteen men reporting. A very stiff practice was held to get the men in shape for next Saturday's game. Wayne Smith and Jamie Shea, two of U. S. C.'s athletes, were showing their old-time form last night. The find of the season is Don Wieman, brother of the famous Oxy star. When he hits the line he sure makes something give. Chili Romero and Don Barager are right up to the dot, both showing lots of pep and willing to work. Flag Pole Johnny Sharpe was on the job last night as well as Bill Gowen and Orville Williams. It was a very satisfactory practice according to the manager, "Dutch" Eckles, who is handling the team in great shape.

Practice will be held tomorrow afternoon at the Third street school and all members are urged to be present. A short scrimmage practice will be held to loosen the men up. Next Saturday the Baraca boys tackle San Fernando High at San Fernando and the outcome of the game is watched with interest by many.

"A TURTLE TEA"

The Queen Esther Circle of the First M. E. church held their first business of the new year Monday afternoon at 3:30, at the home of the superintendent, Mrs. Jack Wagon, 125 S. Kenwood. We had as our special guest, Mrs. Dundas, the highest officer of the Southern California Methodist Conference. She took us on a very interesting and instructive journey, visiting the main fields of our missionary work from coast to coast.

Miss Jessie Shepard, the president, presided at the business meeting. Margaret Lusby lead in devotions, and Marion Addison favored us with a vocal number.

Six new members were taken into our circle, Misses Helen Wright, Marie Swartz, Etha Harding, Melba Weiler, Pearl Huntsburger and Bessie Carney.

The Turtle Tea, which was a very interesting story of our beautiful character Queen Esther, was served at 6:00 o'clock.

Those served at a cafeteria supper were Misses Jessie Shepard, Emily Van Osdoll, Helen Reynolds, Leone Shattuck, Margaret Lusby, Jennie Lacey, Ila Brooks, Zelma Lindley, Freda Lindley, Pearl Huntsburger, Leone Brice, Bessie Carney, Etha Harding, Madeline Love, Marion Addison, Helen Wright, Marie Swartz, Helena Swartz, Melba Weiler, Ruth Pierce, Mrs. Dundas, Mrs. B. D. Snudden, Mrs. C. D. Lusby, Mrs. R. Lacey, Mrs. L. A. Wagon, Mrs. Anna Starkey and the hostess, Mrs. J. B. Wagon.

MISSIONARY ADDRESS

Miss Abbott of Samakove, Bulgaria, a missionary teacher, who recently returned from her work in that country, on account of the war, gave a most interesting address Thursday afternoon, before the Missionary society of the Congregational church. The society met at the home of Mrs. Colin Cable, 755 S. Columbus avenue. There was a large attendance.

Miss Abbott, who was a high school teacher before she took up the missionary-educational work in Bulgaria, gave a very graphic account of the work in that country. In Bulgaria she said educational standards are very high. In 1859 a revival of learning took place and public interest in education has never waned from that time.

The Bulgarians think more of education than of religion. Their schools demand the highest training for teachers and it is considered a very high honor for the Congregational Mission school at Samakove that it has been recognized by the Bulgarian government as on an equal basis with the schools of the country. Miss Abbott read a copy of a government document, wherein the school in which she taught was given public recognition and by which its graduates rank equally with those of the schools of the country. The school which she superintends is a girls' school; but there is also a boys' school, also established by the Congregational Missionary society, which has similar recognition. At the close of the address refreshments were served.

GLENDALE, CALIFORNIA, FRIDAY, SEPTEMBER 22, 1916

HOME AGRICULTURAL WORK

All over the country boys' agricultural clubs have been springing up of late. Parents everywhere have become convinced that this is an excellent method of encouraging boys to find something that will occupy their leisure hours, with pleasure and with profit. These clubs are being organized under the auspices of the United States Agricultural department. Specialists from the department, thoroughly acquainted with all the ins and outs of co-operative demonstration work report that the attitude of the parents is of the utmost importance with regard to the success of the undertaking.

It has been found, for instance, that parental sympathy and consideration, particularly in the solution of the problem of keeping the younger members of the younger generation on the farm is of the highest value. Corn clubs have been popular from the very first. Whether boys have a special liking for corn or whether they believe that it is more easily tended, the fact remains that corn has attracted their attention more than any other crop.

In one case a father furnished his boy with a piece of land—one of the best acres on the farm. He gave him plenty of farmyard fertilizer, and allowed him the use of horses and machinery. The boy produced more than 100 bushels of corn on his single acre the first year and has been proportionately successful ever since. He has established a reputation as a grower of fine seed corn.

Other boys have amassed quite considerable sums of money in corn, pigs and other clubs. One boy won more than \$400 in prizes. Many of them have purchased stock, land and implements with their profits and have gone into the farming business on a larger scale than that which they started.

There is no doubt that but for the encouragement of his father the first mentioned boy would never have obtained the grip he now has on agricultural matters. Some day he will be a most successful farmer. The other boys profited in proportion to the encouragement they received.

Other boys who joined similar clubs but received no encouragement are known to have left home disgusted and to have become servants of servants. There is nothing like encouragement to boys to confirm them in their ambitions. To discourage a boy by taking away his profits as some fathers have done, is almost criminal.

In Glendale the Garden Society is doing the best it can to encourage children in cultivating home gardens. That, too, is a valuable industry. It is productive of health, contentment and profit. When parents are not able to be at home to till the ground or to water and care for the plants the children by devoting an hour or two each evening can make a wonderful growth, even in a small patch of ground. The Garden Society this winter will still further extend the scope of its teaching and will doubtless have another fine record to show when the Flower Show is held in the spring.

THE LAW OF CHANGE

"In nature," said Thales, "everything is in perpetual change; in eternal motion and mutation and their permanence is only illusory. Into the same river we go down and we do not go down; for into the same river no man can enter twice." By that the wise Greek meant that the river is not the same from one moment to another, but that it is constantly offering a fresh body of water.

There is neither stop nor stay in life. To stand still is stagnation. There must be motion or there is death. We are either going forward or we are losing ground. To make the best out of life it is necessary to do good work. The man who does not do his best is not making life what it should be. No man remains the same at the end of the year as he was at the beginning. If such a thing were possible it would simply mean that the man's soul had died.

So many people, as Epictetus said, are walking about in this world being merely the shows or shadows of the things they think they represent that the wise man seeks to mark his own progress by constant reference to what he was in the past. As great a statesman as W. E. Gladstone said that he considered it one of his great privileges to be able to announce that he had changed his mind. He began life as an adherent to the Tory party in Britain and ended by being a Liberal of the Liberals. Progress was the constant condition of the mind of Abraham Lincoln, whose gracious goodness broadened and widened the longer he lived and who, while inflexible in what he thought was right, was ever ready to bow to the trend of changing conditions, with an eye to the greatest good of the greatest number, without sacrificing the rights of the individuals.

In fact man is a creature of change. From the very earliest day his history has been one of advance. Because a thing was done in a certain way a hundred years ago is no reason why it should be done in that way at the present moment. A respectful regard for the wisdom of the past is no reason why the world should bind itself in the chains of exploded theories or wrap itself in the mists of departed philosophies.

"Life's but a means unto an end," sings Fetus; "that mean, beginning, mean and end of all things—God." That is to say the infinite. It is no life time that will be needed for the development of man. It is eternity. To the inquiring and constantly changing soul that ever catches new glimpses of the land that is "beyond these voices," there is a constant revelation. "On," says God unto such souls and on they go, rejoicing natives of infinite as is a bird of air—an orb of heaven.

Change is written in broad, bright, easily read characters everywhere. Within an hour's ride of the city of Los Angeles, with its rapidly growing metropolitan population, lie the asphalt pits of La Brea, where the bones of the mammoth and of the sabre-toothed tiger and of hundreds of other creatures of a distant past tell of the ages upon ages that have elapsed until the modern city has arisen where the creatures of the palaeozoic age once roamed. Another few such ages and yet another scene shall greet the eyes of a future race.

CHANGES MADE IN BORDER TROOPS

WASHINGTON, D. C., Sept. 22.—The Wyoming and Washington units that have not yet seen service on the border have been sent to the front to take the places of various other units ordered home. Many men in regiments ordered home are now volunteering for service with companies that are to stay on the border. Permission for the men to transfer in this manner has been given by Gen. Funston, commander of the Southern department.

SALT LAKE GETS GRAND PRIZE

Word has just been received that the jury of awards, acting for the Panama California International exposition, at San Diego, California, has given the grand prize for buildings of its class to the Salt Lake Route-Union Pacific building which has been operated by these two railway systems since the beginning of the exposition in January, 1915.

This building has been one of the features of the exposition, carrying with it a most interesting exhibit bearing upon the country tributary to the Salt Lake Route, and also maintaining an efficient information bureau covering every section of the great west, thus forming a most valuable adjunct to the exposition's many attractions.

Two of the special attractions in this building are the massive maps, each occupying one end of the great reception hall. One of these maps covers in detail the entire country tributary to the lines of the Salt Lake Route, while the other is equally illustrative of the wonders of the Yellowstone. Each of these maps were last year awarded gold medals by the committee of awards and the building itself was given like recognition in 1915, to be followed this year by the award of the grand prize.

In addition to these exhibit features the Salt Lake Route-Union Pacific building has been noted for its entertainment features, its hospitality having been extended to all prominent visitors and its doors kept open for the entertainment of every gathering of importance that has made a tour of the fair.

A fly and a flea in a flea
Were imprisoned. Now what could they do?
Said the fly, "Let us flee!"
"Let us fly!" said the flea—
So they flew through a flaw in the flea.—Puck.

The man in Los Angeles who made a tough glass hood for his automobile can see what his motor is doing without the inconvenience of slowing down or stopping.

CERTIFICATE OF BUSINESS

Fictitious Firm Name

The undersigned does hereby certify that he is conducting a sales company in the City of Los Angeles, California under the fictitious firm name of the "Great Western Sales Company" and that said firm is composed of himself; that his address is as follows, to-wit:

Al Urback, Los Angeles, California.

WITNESS my hand and seal this 21st day of August, 1916.

ALFRED URBACK.

STATE OF CALIFORNIA,

County of Los Angeles, ss.

On this 21st day of August in the year of Nineteen Hundred and Sixteen before me, Walter A. Ham, Notary Public in and for said County, residing therein, duly commissioned and sworn, personally appeared Al Urback, known to me to be the person whose name is subscribed to the within instrument and acknowledged to me that he executed the same.

WITNESS my hand and official seal this 21st day of August, 1916.

WALTER A. HAM,
Notary Public in and for the County of Los Angeles, State of California.

NOTICE

Sealed bids will be received by the Board of Trustees of the City of Glendale, California, until 7:30 p. m. of Thursday, September 21, 1916, for any or all of the following items:

- (1) One horizontal turbine pump to deliver 3000 gallons per minute against a 320 foot head.
- (2) Two 16 inch deep well pumps to deliver 1500 gallons per minute each from a depth of 40 feet.
- (3) One 350 horsepower horizontal induction motor.
- (4) Two 35 horsepower vertical induction motors.

All items shall conform to the specifications for said items on file in the office of the City Clerk of Glendale, adopted September 7th, 1916.

Each bid must be accompanied by a check certified by a responsible bank payable to the order of the President of the Board of Trustees of Glendale for not less than ten per cent of the aggregate sum of the bid as a guarantee that the bidder will execute the proposed contract should he be the successful bidder.

The City reserves the right to reject any or all bids.

By order of the Board of Trustees.

Dated this 8th day of September, 1916.

City Clerk.
J. C. SHERER.

Cash Must accompany copy for advertisements in classified column.

Personals

Mr. and Mrs. George Adams, 1450
Ivy street, spent the day, Thursday,
at one of the beaches.

Mrs. Whittaker, 1436 Salem St.,
is entertaining her mother, Mrs.
Lane of Los Angeles.

Miss Flora Bates, who is at present
visiting her sister, Mrs. W. D.
McRae of Dryden street, has gone
to Switzer's camp, along with Miss
Hazel Tyler, for the week-end.

Miss Grace Beach, 333 N. Brand
boulevard, who graduated from the
Glendale High school with the class
of 1916, leaves Sunday for the Mar-
tha Washington seminary, Washing-
ton, D. C.

Mrs. Ella W. Richardson and her
son, Mr. Will Richardson, 805 S.
Central avenue, accompanied by Mr.
and Mrs. DeWitt of Pasadena, mo-
tored to Puente Thursday, where
they interested themselves in some
agricultural operations.

Miss Veta Franklin, sister of Mr.
Blake Franklin, 1498 W. Third St.,
arrived in Glendale Thursday on a
visit to her relatives. Miss Frank-
lin has been attending Columbia
university, New York city. She will
attend the University of Southern
California, and will spend the win-
ter here.

C. J. Anderson of La Crescenta,
who was badly injured while digging
a well for the Goss Canyon Water
company, in Goss canyon, Wednes-
day, is now in the Methodist-Episco-
pal hospital, Los Angeles, where sev-
eral pieces of bone have been taken
out of his injured hip. His many
Glendale friends will be glad to
hear that he is resting easily and will
be quite well when he leaves the hos-
pital.

VALLEY VIEW

Vine street between Central and
Columbus especially needs working
over, as it is in very rough condi-
tion for autos.

Mrs. Vohl, mother of Mrs. J. F.
Hearshaw, 1450 Lomita, has moved
into the latter's house at 1546 Colo-
rado.

A. E. Vose and family of 1512 Oak
street have returned from a six
weeks' camping trip to the vicinity
of Bishop.

People living along Pacific avenue
are awaiting very impatiently the
promised oiling of the street. Since
it has been graded the dust has be-
come almost unbearable.

Mrs. F. Bach of 1521 Vine street,
who fell and broke her hip not long
since, is getting along reasonably
well for one of her advanced age, but
suffers great pain constantly.

Colorado street west of Central
needs attention before the winter
rains set in. Heaps of sand washed
down block the roadside ditches in
many places, forcing the water to the
center, thus eating away the
macadam.

W. E. Hammon and wife and two
little daughters, who formerly lived
at 1520 Colorado and moved several
months ago to Phoenix, Arizona, and
went thence to El Paso, Texas, are
visiting Mr. Hammon's parents at
1461 Colorado. They expect to mo-
tor to Seattle, Wash. soon, to visit
her parents.

MOTHERS' STUDY READING CIRCLE

The Mothers' Study Reading Circle
met in the Pacific Avenue school,
Thursday afternoon. There was a
good attendance. The circle took up
the study of Kate Douglas Wiggin's
interesting book, "Children's
Rights." The chapter on "How to
Govern Children" was read. Mrs.
Stone, principal of the Pacific Ave-
nue school, also read the chapter on
"The Magic of Together." A dis-
cussion, in which all present took
part, proved of great interest. Those
present were: Mrs. Warner and her
sister Mrs. Burnham, from Tropico;
Mrs. F. Ayars, Mrs. Begg, Mrs.
Stone, Mrs. Ward, Mrs. Sherman,
Mrs. R. A. Puffer, Mrs. Hilbert and
Mrs. Wilson.

PRESBYTERIAN PICNIC

The annual Church and Sunday
school picnic of the Presbyterian
church will be held at Brookside
park, Pasadena, tomorrow (Sat-
urday) the 23rd. Trucks will leave
the church, corner Broadway and
Cedar street, at 9:30. Ten cents for
the round trip. All Presbyterian
families of the city, whether mem-
bers of the local church or not, are
invited to attend. The committee in
charge desires to make this a big
rally of all Presbyterians. The com-
mittee has planned for an unusually
attractive program, so that all who
attend are assured of a good time.

BIRD AND FLOWER CLUB

Members and friends will meet
Saturday at headquarters, 1111
Broadway, at 11:45 a. m., equipped
with lunch and carfare. The 11:55
Montrose car will be taken to the
end of the five-cent fare, Avenue F,
Glendale Heights. The party will
probably return on the 3:25 car to
Glendale.

"Do not count little pleasures too
small to bestow wherever you have
a chance."

GLENDAL E F O O T H I L L S

Mrs. F. R. Burns of 1325 Dryden
street has just received a letter from
her sister, Mrs. McClung, who with
her family has been for some time
in New York city, stating that the
family has started for California by
way of the Panama canal. Mr. Mc-
Clung is a well-known moving pic-
ture man. He superintended the
production of the battle scenes in
"The Clansman."

Mrs. McRae of 1321 Dryden St.
entertained at luncheon, Tuesday
evening, in honor of her sister, Miss
Flora Bates, who is here on a visit
from Santa Barbara. Those present
were Miss Edith Tyler, Miss Augusta
Otto, Miss Elizabeth Brown and Miss
Mabel Gailey.

Mr. and Mrs. F. C. Herron and
family, 1440 Vine street, are con-
templating moving to Long Beach
for a month or two.

Miss Grace Schermerhorn of Long
Beach is the guest of Mr. and Mrs.
Blake Franklin, 1498 W. Third St.

Mr. and Mrs. Yorba of Pasadena
were visitors at Casa Verdugo res-
taurant, Thursday, as guests of Mrs.
Sowl, Mr. Yorba's mother.

CORRECTION

In "Prizes for Birdhouses" in yester-
day's issue, "it is expected that
100 prizes will be published within
a few days" should read "it is ex-
pected that 100 birdhouses will be
entered for competition."

KNEW WHAT HE WANTED

You can excuse a child for calling
a whale a fish, but listen to the
youngster, who is reported by "The
Librarian" in the Boston Evening
Transcript:

Child at Library—"Please give me
a book on whales."
A book on natural history with a
chapter devoted to whales is brought.
The Child—"Oh, I don't mean a
book on the insect; I mean the
country!"

LA CANADA

Mr. and Mrs. Clinton Norcross at-
tended "Rolling Stones" at the Mor-
osco Theater, L. A., Tuesday evening.

Mr. and Mrs. R. R. Hensler of
Hollywood are spending the week-
end with Mr. and Mrs. Clinton Nor-
cross, on Roy avenue.

Sermon brief-subject, "Greater
Things." Text, John 1:50, "Thou
shalt see greater things than these."
The praying Hebrew emerges from
his praying place under the canopy
of fig tree foliage, to hear Christ
say, "Thou art a guileless worship-
per." In reply the Hebrew said,
"Thou art thy Son of God." He in-
terpreted Christ because Christ had
interpreted him. The man's cano-
pied devotions opened out into the
school house of an illuminating dis-
cipleship. Seeing the Christ he was
schooled to see the "greater things."
The great teacher always enlarges
the vision. His pupils under his tut-
elage life's feasts grow richer under
his leadership in the world's pro-
gress. Alchemy opens out into Chris-
tianity, astrology into astronomy.
Atoms give way to electrons. Christ
stooped to write upon the ground.
Out of the ground, touched by his
influence, the radiometer has come
to tell man the radiance of the stars
and the thermometer to declare
their temperature. Christ promises
to enlarge the realm of our knowl-
edge if we will be his disciples. No
continent or community has built a
school house until after it has built
a church. The tree of knowledge and
the tree of life are close together in
the Eden of the world's economy.
Science like the dumb beast is untied
when the master hath need of him.
The untying of natures forces has
waited for Christ's ambassadors. No
cable girdled the globe until men
obeyed Christ's command to "go un-
to all the world." Men may enjoy
the blessings of the "greater things"
without obeying the Christ as Galil-
ean sailors, who did not hear Christ's
voice, enjoyed the calm when Christ's
voice said "peace be still." But the
"greater things" come to those who
come to an experimental knowledge
of the world's Christ.

TRAVELING AROUND THE WORLD

Talk of making a tunnel under the
English channel has lately been re-
vived. If this were done, and if a
bridge were built across narrow Ber-
ling strait, all of Europe would be
connected with America by a land
route. And, says the Kansas City
Star, when the North and South
American railway has been built, and
the Cape-to-Cairo road is finished,
transversing Africa its full length
from north to south, the traveler
from Patagonia, having reached
Berlin without wetting his feet, could
go on, dry shod, by way of the new
Berlin-to-Bagdad railway, the build-
ing of which has been interrupted,
across the Bosphorus bridge into
Asia by rail; down through Palest-
ine to Suez, by the new German
military railroad now almost fin-
ished; from there to Cairo, and
across Africa to Capetown.

Experiments are now being made
in the Carlsbad district of Germany
in the use of cement posts in the hop
gardens for carrying the wires on
which the hops grow. Wooden poles
are now used. If the experiments are
successful there will be a big field
for the placing of machines for the
construction of the posts. In the Saaz
district 30,000 acres are normally
planted to hops and 210 poles are
needed to the acre.

TONS OF HONEY

More than 27,000 tons of honey
are produced annually by bees in the
United States.

MOTORS FOR GYPSIES

Automobiles are being so univer-
sally used that even gypsies have
given up their picturesque vehicles
and their horses in favor of the con-
venient and speedy motor.

The stand of timber on the two
great National Forests in Alaska is
estimated by the Forest Service as
over 70 billion board feet, while the
annual growth will, it is said, pro-
duce of pulpwood alone enough for
the manufacture of three thousand
tons of wood pulp a day.

Oak is the most suitable wood for
carving, on account of its durability
and toughness, without being too
hard. Chestnut, American walnut,
mahogany and teak are also desir-
able, while for fine work Italian wal-
nut, lime, sycamore, apple, pear or
plum are generally chosen.

All may not win the prize,
But when all's said and done,
Where'er the finish lies
'Tis mighty good to run,
And try to keep the pace
E'en though we lose the race!
—Selected.

"At least ninety per cent of the
accounts passed on by the credit man
of average experience are above sus-
picion. The real value of his ser-
vice rests on the remaining ten per
cent."—Kallman.

"The poorest economy in which an
establishment can indulge is that of
so crowding the man at the credit
desk that he has to work with his
pencil more than his brains."—Kall-
man.

Half our work is waiting, and hope
is the inspiration of waiting; that is,
hope makes waiting active instead
of passive, a vivid expectation in-
stead of a slumberous acquiescence
in delay.—Selected.

One ton of coniferous wood waste
will produce from 15 to 25 gallons
of 190-proof alcohol.

The farm woodlots of the United
States contain about 10 per cent of
the total standing timber in the
country.

Grazing experts of the Forest Ser-
vice estimate that the cost of pro-
ducing lambs in the Northwestern
States is \$1.82 per head.

The bark of black oak, or "yellow
oak," as it is often called on account
of the color of the inner bark, is
now used for dye-making.

"I don't believe in parading my
virtues."

"I don't see how you could. It
takes quite a number to make a pa-
rade."—Boston Transcript.

One and one are always two,
And two and two are four;
But just as true it is, you'll find,
That love and love make more.
—Selected.

Hundreds of people can talk for
one who can think, but thousands
can think for one who can see.—
John Ruskin.

"When you didn't have your fare
did the conductor make you get off
and walk?"

"Only get off. He didn't care
whether I walked or sat down."—
Topeka Journal.

"God never tells us to equal some-
body else. He tells us to do our
best."

Profits come from the man whose
heart is in his work.

Temptation runs away from us, if
we run away from it."

BUSINESS PRUDENCE

It is the part of good business prudence to make a con-
nection with a bank where you can enjoy a personal acquaint-
ance with the officers of your bank and be able to transact
your business with them.

The business of the world today is done on the basis of
commercial credit—and very often upon the extent of that
credit depends success or failure.

If you are known here as a reliable depositor—and if you
ever need to borrow—your request will be given every con-
sideration.

KEEP IN MIND THAT THE SERVICES OF THIS BANK
ARE IDENTICAL AT

BANK OF GLENDAL E

BURBANK

The Good Templars met Monday evening at Horne Hall, and after a short business session the members enjoyed a most pleasant social affair.

Born, to Mr. and Mrs. Earl Groshong, on Angeleno street, Saturday, Sept. 16, a daughter.

Ward Shelton and Mr. Shelton went on a hunting trip Tuesday morning and were fortunate enough to secure a deer after a few hours of stalking.

W. S. Pollock, president of the Farmers and Merchants Bank, is suffering from a severe attack of pleurisy.

Messrs. Hannawalt, Sampson and Le Masters went hunting early Sunday morning and brought back to town a fine deer.

On Tuesday of this week the Sewing and Economic Section of the Burbank Woman's club met at the home of Mrs. H. X. Cline.

Mr. and Mrs. Watson of Angeleno avenue are enjoying a two weeks' camping trip.

N. M. Peterson of the Chaffee store is enjoying a couple weeks' vacation at Pasadena.

Chapter U of the P. E. O. Sisterhood met Friday afternoon at the home of Mrs. W. A. Blanchard on Tejuja avenue, this being the second meeting of the year.

A pleasant week-end party at Laguna Beach was enjoyed by Mr. and Mrs. H. W. Rossup, Mr. and Mrs. C. W. McConnell, Mr. and Mrs. C. Sanchez, Mr. and Mrs. Ray Sence, Miss Constance Walker and Lenore Walker.

Burbank Trustees Meet

The regular meeting of the Board of Trustees of the City of Burbank was held at the Burbank city hall Tuesday, Sept. 19, there being present Trustees W. A. Blanchard, W. L. Pollock, E. S. Hogle and R. L. Linn. Absent, Trustee Forbes. Other city officials including City Clerk Emily M. Peyton, City Attorney V. T. Watkins, City Engineer F. Curt Miller and City Marshall O. S. Greenwood were all present.

The minutes of previous meeting were read, approved and ordered filed.

Upon motion, duly seconded, bids for pipe to be furnished the City of Burbank, were opened and the contract awarded to Smith-Booth-Usher Co., that firm being the lowest bidder. The bids were for 6800 feet of pipe, 4 in. diameter, wrought iron standard screw, non-dipped, the pipe to be delivered within sixty days of time contract was awarded. Following are the bids and the firms submitting them:

H. R. Boynton Co., per 100 feet, stock shipment, \$46.62; shipment from factory in 30 days, \$40.69 per 100 feet.

Crane Co., per 100 feet from mills, \$40.68; from Los Angeles, \$41.78.

A. H. Busch Co., per 100 feet, \$41.50.

Smith-Booth-Usher Co., per 100 feet, \$40.67.

Fairbanks, Morse & Co., 3000 feet, \$1385.62; 3800 feet, \$1546.72.

A communication from J. T. Bate, president of the Chamber of Commerce, relative to improvements at the Southern Pacific Station, was referred to the city engineer.

A communication from the city clerk of South Pasadena, relative to taxes which should be returned to cities where taxes are collected by the county, was read. The matter was referred to the city attorney for investigation.

A communication from the Com-

pensation Insurance Fund, regarding compensation due O. S. Greenwood and F. C. Seaton, for injuries sustained while in discharge of their duties as employees of the city of Burbank.

The following bill was allowed:

GENERAL FUND

Geo. Luttge.....\$10.00

The committee on lighting was authorized to sign a contract for the new electrical fixtures for the city hall.

The extension of water mains to the property of H. K. Lowry was approved.

Plans and estimates for the work outlined in the provisions of Resolution No. 107 was presented and approved.

Trustee Blanchard called attention to a request from Mrs. W. A. Watson in behalf of the Woman's club, they having asked that the board co-operate with them in a general clean-up of the municipal streets before the date of the San Fernando Valley club reciprocity day, Friday, Oct. 10th.

SUNLAND

Mr. Hugh Waddell of Los Angeles was a Sunland caller Thursday.

The Rural Route in this section was traveled over the past week by an inspector from Washington, D. C., who will make changes in the mail boxes and improvements along the route.

Dr. I. J. Rowley and wife of Los Angeles were in Sunland Thursday.

Mr. Alfred Adams, Jr., has purchased a new Ford.

Mr. B. H. Warfield, who has been a long time resident of this valley, moved last Saturday to Turlock, where he will engage in the Realty business. We wish Mr. Warfield success in his new venture.

Mrs. W. T. Brown of Los Angeles visited her nephew and family, Mr. Allen Richardson, this week.

Mr. and Mrs. Wood Hagen and sons Ralph and Harry visited Sunday at the home of Geo. E. Huse.

Miss Maud Jennings is the guest at the home of C. C. Nicholson.

Mr. and Mrs. Dickson of Sawtelle were looking over the valley Friday.

Wm. Stancliff and wife of Burbank visited in Sunland Tuesday.

Miss Menita Huse visited in Los Angeles this week, the guest of Mrs. Andrew Johnson.

Mr. John Terry has rented the house recently vacated by B. H. Warfield and will move into it the first of the month.

The Majestic Motion Picture company, which has been taking a Spanish war scene in Sunland and the Tejuja canyon, came up to finish the scene Monday. The directors, the Franklin Bros. and Mr. Webb, accompanied by thirty-two of their star actors, were served with lunch on the lawn of the Park Hotel.

Mrs. J. E. Graham served dinner to sixty people Sunday. Among the guests were Mrs. Ralph Hamlin with a party of fourteen as her guests. After a well appointed dinner (which Mrs. Graham knows how to serve) the party spent a very pleasant evening with Capt and Mrs. Cushman at their home on First street. The cars driven by this party were certainly a fine lot, but Mrs. Hamlin's closed Franklin was surely a thing of beauty. Sunland with its beautiful scenery, its good roads and good hotels is becoming a great resort for city people.

The largest deer taken out of the mountains around here was killed by Mr. Welsh, director of the Fox Picture company. The deer was killed in the Little Tejuja canyon near Mr. Branstetter's homestead, and weighed two hundred pounds. Mr. Welsh was very proud of his success and thinks he will try again.

Mr. Claude Surface and wife from Kansas City, Mo., have moved into one of Mr. Rowley's tent houses. Mr. Surface is very ill.

Next Wednesday evening, Sept. 27, will be the yearly business meeting of the First Baptist church. A full attendance is desired as the pastor, Rev. C. N. Wester, has something to say to the people.

Christian Endeavor at the First Baptist church. Subject, "Christianity Compared With Other Religions." 1 Cor. 10:1-21. Leader, Miss Carrie Adams. Young people specially invited.

Mrs. Ella Hawthorne, who for the past few months has been battling with the great white plague, gave up the fight and passed away Friday, Sept. 15th, at 3:00 o'clock. By her request she was buried in a grave made in a rock in the side of the mountain in the Big Tejuja canyon, near which she died.

Mr. Frank Estrada met with quite an accident while drilling for gravel in the hills for the county roads. While springing a hole preparatory for the charge of powder for loosening the gravel, he accidentally hit the cap, which exploded immediately, tearing his hand quite badly. Dr. Kearney of Tejuja dressed the hand and Frank will soon be able to drill again.

Among the attractive affairs of the past week was a dinner party given by Mrs. George Bernhard at her home on Summit avenue, in honor of Mr. Theodore Bernhard. The guests were Captain and Mrs. T. Cushman, Miss Maria Lancaster of Sunland.

There will be a meeting of the mothers and others interested in the Parent-Teacher association, at the school house, Thursday, Sept. 28, at 4:00 o'clock. Sunland is about the only place which has not a Parent-Teacher association. Let us get together with our teachers and do something toward organizing this helpful club.

Sunday, Oct. 1, the Flying Squadron of the Los Angeles County Christian Endeavor Union will make a trip through this district and have charge of the Christian Endeavor services at the First Baptist church. Tell all your friends and be there.

The Misses Ethel and Josephine Akens are spending a few days at Long Beach.

Guests at the Monte Vista Tavern this week: Mr. H. H. Denner, clerk Lankershim Hotel, Los Angeles; J. A. Small, Burbank; John T. Wilson and family, San Fernando; Jack Kid, Los Angeles; H. F. Clark, San Francisco; Mrs. G. Graham, Chicago; Mrs. Hall, Pittsburgh.

Spencer Corey is able to sit up a while each day.

Harry Akens of Los Angeles and Miss Hickey of Reno, Nev., called on Mrs. Corey at the Tavern Sunday.

A moonlight swimming party was given by Miss Mary Begue at her father's ranch for Mr. and Mrs. Ed Thomas, Mr. H. F. Clark and Ed Gildmacker, Tuesday night. After a fine swim, a bountiful dinner was served and the evening spent in music and cards. The guests re-

turning home at a late hour, expressed their appreciation of their good time.

Mr. Ed Thomas, who is working for the Union Oil company of Burbank, has been transferred to Lancaster for a month.

Mrs. F. Corey and daughter, Mrs. Ed Thomas attended the funeral of Mrs. Ella Hawthorne at the Hansen ranch, Tejuja, Tuesday.

Take time to speak a loving word Where loving words are seldom heard,

And it will linger in the mind, And gather others of its kind.

'Tis loving words will echo where Erstwhile the heart was poor and bare;

And somewhere on the heavenly track

Their music will come flooding back, And flood thy soul with melody, Such is Love's immortality.

—Anon.

HORSE STILL INDISPENSABLE

As yet the motor truck does not appear to foreshadow the retirement of the horse, declares a writer in the Providence Journal. On the contrary, the market prices in Boston indicate the horse is more than holding its own against the new competitor. The local demand for horses is greater than it was a year ago, and higher prices are predicted.

The steam locomotive, the electric motor and the bicycle never drove the horse off the roads. Automobiles to the number of hundreds of thousands are in daily use, and there is no lack of work for the horse. The advantages of heavy motor trucks have been proved, and yet more horses than ever are in demand. The explanation is that as the country is developing there is enough hauling for all classes of vehicles and that under certain conditions the horse is the most available means for moving commodities.

MISTRUST

A habit of mistrust is the torment of some people. It taints their love and their friendship. They take up small cases of offense. They expect their friends to show the same aspect to them at all times, which is more than human nature can do. They make experiments to ascertain whether they are sufficiently loved. Some persons acquire these suspicious habits from natural diffidence in themselves. With others the habit arises from a selfishness which cannot be satisfied. And their endeavor should be to unroot such a disposition, and not to soothe it.—Selected.

THE GRINDSTONE

One day when I, a boy, bewailed the wealth to me denied, I recollect my Uncle Hiram taking me aside

To chide me for my petulance and whisper in my ear A bit of homespun logic and some facts designed to cheer.

"My boy," he said, "in after years you'll recognize that strife, Unceasing toil, and poverty equip one best for life;

For men, like tools, don't get an edge on things as smooth as wax; It's just the grindstone's roughness, lad, that sharpens up the ax."

—Selected.

TRAIN MADE OF FLOWERS

A miniature railway train made entirely of bulbs, flowerpots, and a few wire receptacles, constituted the principal feature in a recent garden display of a firm in Des Moines, Ia. Pots variously arranged served as wheels, cowcatcher, steam cylinders, bell, etc. Properly shaped wire racks, filled with bulbs, represented the body of the engine and tender, reports Popular Mechanics. To form the box car, the bulbs were fastened outside of a framework. As far as practicable the bulbs, forming each part of the exhibit, were of uniform size. The train was surrounded with appropriate advertising.

HORNS

A lad of seven, who had always lived in the city, was visiting his uncle on a farm, says a contributor to the Chicago Tribune. He was much interested in the stock, particularly the cows, but he did not know what the horns were. Upon being told, he seemed satisfied. Soon one of the cows uttered a long, low "moo." Turning to his uncle, the boy asked: "Which horn did she blow, Uncle Billy?"

SHE WAS RIGHT

Teacher—"Now, Dorothy, tell me how many bones in your body?" Dorothy—"Two hundred and eight."

Teacher—"That's not right. There are only two hundred and seven." Dorothy (with great delight) — "But I swallowed a fish bone this morning."—Indianapolis Star.

DESCRIBED

Portly Woman (pushing her way into a police station)—I see you have arrested a man whose mind is blank. Officer—"We have, madam."

Portly Woman—Then please bring him out so I may have a look at him. Mr. Henry didn't come home last night, and that's a fairly good description of him.

AFTER HARVEST

Come and wander o'er the fields; The coppice still looks gay, Lovely autumn flowers it yields, And the heather on the wealds

Is in bloom today

Though the harvest-hum is still, Beauty lingers on the hill.

Stubble-fields look brown and bare, And orchard fruits are gone, Save an apple or a pear, On a tall branch here and there,

Overlooked, alone.

Still there's beauty in the scene; Meads and pastures smile in green.

Woodland foliage I behold Wears a yellow hue; Brightening here and there like gold, When the sunny rays unfold,

Very rich to view; Brighter now than early spring, Or the flash of summer's wing.

Say not beauty's witching smile Is with harvest gone; See the rich rewards of toil Gathered from the fruitful soil

Round the farmyard drawn; Cheerful homesteads, garden plots, Mansions fair, and laborers' cots.

Now at eventide I hear Children's shouts and song; Honest toilers have good cheer, 'Tis their brightest time of year, Waited for so long.

So their tide of gladness swells, And they ring the evening bells.

—Benjamin Gough.

WHAT THERE'S TIME FOR

Lots of time for lots of things, Though it's said that time has wings.

There is always time to find Ways of being sweet and kind; There is always time to share Smiles and goodness everywhere;

Time to send the frowns away, Time a gentle word to say, Time for helpfulness, and time To assist the weak to climb,

Time to give a little flower, Time for friendship, any hour. But there is no time to spare For unkindness, anywhere.

—Frank Walcott Hutt

GERTRUDE'S MEMORY WAS ALSO TAXED

"Gertrude," asked the teacher, "what were the causes of the revolutionary war?"

"It had something to do with automobiles, but I do not understand just what," replied Gertrude.

"Oh, no!" said the teacher, "that was before the day of automobiles."

"We'l, it said it was an account of unjust taxis," said Gertrude firmly.

HANDY

Cumso—My hair's all coming out. Can you give me something to keep it in?

Goso—Sure! How'll this old collar box do?

GOVERNMENT

"Chancy, dear," said young Mrs. Chanter Voght, "I'm going to be in favor of government ownership."

"Have you given the matter any thought?"

"Yes, indeed. If we had government ownership of railroads I might be able to tell any conductor who didn't find me a seat on the shady side of the car that I would not vote for him next election."

FRIENDSHIP

A quince, a peach and a plum Were the gifts which to me you made And I gave you an emerald, with a ruby and piece of jade.

Do I measure the value of gifts which pass between me and you?

No, friendship is greater than gifts when friends are faithful and true.

—Ancient Chinese (tr. by C. F. R. Allen.)
